Disability Access Action Plan

INTRODUCTION

The existing Accessible Viewing area is of a temporary nature and the club plans to complete the following work before the commencement of the 2019-20 season: -

- A new raised viewing area with ramped access, with no viewing obstructions, in the first section of the existing covered 'terrace' on the main Public Park side of the ground.
- A small seated area (capacity 15-20 seats) in the second section of the existing covered 'terrace' on the main Public Park side of the ground.

The existing temporary area will then be removed.

The proposed works will provide a much-improved match day experience for this with a 'disability'.

Planning Permission has been applied for and approved by Midlothian Council.
